

COVID-19 Customer Update: Pennsylvania & Indiana Facilities to Close 4/1

March 30th, 2020

To our friends and customers,

As of Wednesday, April 1st, all Allegheny Coatings metal finishing and coating application facilities will be temporarily closed for a period of ten (10) business days. Both facilities will maintain minimal functions, such as shipping/receiving, customer service, and quotation services, during the planned shut-down period. This decision is the result of several factors, including employee safety, state government guidelines, coating material supply chains, and industrial market demand.

In the event that your supply chain requirements are vitally impacted by this shut-down, please notify us immediately; we will do what we can to find an alternative solution for your business. We anticipate a speedy resumption of operations once the shut-down has been lifted to minimize delivery delays.

The following correspondence channels remain available to you. While our teams will seek to provide expedient communication during this shut-down time, please allow for more time than usual for a response.

- Customer Service Contacts:
 - Ridgway, PA: ACR.CS@alleghenycoatings.com
 - Fremont, IN: ACF.CS@alleghenycoatings.com
- Sales Inquiries: sales@alleghenycoatings.com

Should market conditions change, Allegheny Coatings may elect to open earlier than indicated or further suspend operations. As always, you will be notified of any change in plans as soon as possible.

Thank you for your attention and support during this unique situation. Please be safe and healthy as we work through this challenging time together. We appreciate your business considerably and are eager to return to work for you as soon as possible.

Stay well,

Christopher R. Pletcher
Vice President, Allegheny Coatings
